(ii) The provisions of the tax laws for the time being in force in India will be applicable for the purposes of assessing and determining the liability of the investor or holder of the Securities.

(iii) Any dispute in relation to the Securities shall be decided by the Courts in India.

5. Modes of issue of Securities

Government of Gujarat may issue from time to time Securities through the following modes:

- (i) Issue of Securities through auction.
- (ii) Issue of Securities with pre-announced coupon rates.
- (iii) Issue of Securities through tap sale.
- (iv) Issue of Securities through any other mode, as may be notified.

6. Features of different modes of issue of Securities

6.1 Issue of Securities through auction

(i) The Securities will be issued through auction either on price basis or on yield basis. Where the issue is on price basis, the coupon will be pre-determined and the bidders have to quote the price per Rs.100.00 face value of the security, at which they desire to purchase the security. Where the issue is on yield basis, the coupon of the security is decided in an auction conducted by Reserve Bank of India in the manner hereinafter provided and further provided by the Specific Notifications issued from time to time. The security carries the same coupon till maturity.

(ii) The yield per cent per annum or the price, as the case may be, expressed up to and rounded off to two decimal places, should be clearly stated in the application.

(iii) An applicant may submit more than one bid at different rates of yield or prices, as the case may be, through separate applications for each bid. The aggregate amount of bids submitted by a person should not exceed the aggregate amount of Securities offered for sale.

(iv) On the basis of the bids received, the Reserve Bank of India will determine the maximum rate of yield or the minimum offer price as the case may be at which offers for purchase of Securities will be accepted at the auction. Except in the case of price-based auctions, the maximum rate of yield determined at the auction will be the coupon rate percent per annum on the Securities sold at the auction.

(v) The auctions for issue of securities (on either yield basis or price basis) will be held either on 'Uniform price' method or on 'Multiple price' method or any other method decided by the Government of Gujarat or the Reserve Bank of India in consultation with the Government of Gujarat.

Where an auction is held on 'Uniform price' method, competitive bids offered with rates up to and including the maximum rate of yield or the prices up to and including the minimum offer price, as determined by the Reserve Bank of India will be accepted at the maximum rate of yield or minimum offer price so determined. Bids quoted higher than the maximum

rate of yield or lower than the minimum price as determined by the Reserve Bank of India will be rejected.

Where an auction is held on 'Multiple price' method, competitive bids offered at the maximum rate of yield or the minimum offer price as determined by the Reserve Bank of India will be accepted. Other bids tendered at lower than the maximum rate of yield or higher than the minimum offer price determined by the Reserve Bank of India will be accepted at the rate of yield or price as quoted in the respective bid. In yield-based auctions, successful bidders, whose quotes are lower than the maximum rate of yield, are required to pay the price differential in the form of a premium. Bids quoted higher than the maximum rate of yield or lower than the minimum price as determined by the Reserve Bank of India will be rejected.

Where the auction is held on any other method, the method of acceptance of the bids will be decided by the Government of Gujarat.

(vi) The Reserve Bank of India will have the discretion to accept excess subscriptions to the extent as may be specified in the 'Specific Notification' pertaining to the issue of the Security and make allotment of the security accordingly.

(vii) The Reserve Bank of India will have full discretion to accept or reject any or all bids either wholly or partially, without assigning any reason.

6.2. Issue of Securities with pre-announced coupon and amount of issue

(i) The coupon and amount of issue of such Securities will be announced before the date of floatation and the Securities will be issued at par.

(ii) In case the total subscription exceeds the aggregate amount offered for sale in respect of a fixed coupon Security, the Reserve Bank of India may make partial allotment to the applicants.

(iii) The Reserve Bank of India will have full discretion to accept excess subscriptions to the extent as may be specified in the 'Specific Notification' pertaining to the issue of the Security and make allotment of the security accordingly.

(iv) Reserve Bank of India will have full discretion to accept or reject any or all applications either wholly or partially, without assigning any reason.

(v) The amount of excess subscription in terms of clause (ii) of this paragraph or amount of subscription in case of rejection of application in terms of clause (iv) of this paragraph, will be refunded by the Reserve Bank of India to the respective subscribers as soon as possible and no interest will be paid on the amount so refunded.

(vi) Securities bearing the same coupon rate and maturing during the same financial year (April-March), issued by Government of Gujarat on different dates in a particular financial year will be considered as reissue of such security first issued during the financial year. Further, interest due dates and date of repayment of reissues will be same as that of the Security first issued during the financial year bearing the same coupon rate and having identical maturity.

6.3. Issue of Securities through tap sale

No aggregate amount is indicated in the notification in respect of the Securities sold on tap. Sale of such Securities may be extended to more than one day and the sale may be closed at any time during the banking hours on any day.

6.4. Allotment of Securities

Firm Allotment of securities in respect of Securities issued under 4(ii) and 4(iii) above will be made as decided by Reserve Bank of India from time to time. Multiple applications from the same party will be combined and treated as one for purpose of allotment.

7. Different types of Securities

Government of Gujarat may issue from time to time the following types of Government Securities:

- i) Securities with fixed coupon rates
